

Tokyo, Japan/ Oct 6, 2023, LIVE BOARD,INC. Metro Ad Agency Co., Ltd.

# All lines to be networked! Tokyo Metro’s in-train DOOH - “Tokyo Metro Vision” - inventories across 19,492 screens of all 9 Lines, now available on the LIVE BOARD Marketplace

Metro Ad Agency Co., Ltd. and LIVE BOARD, INC. announced that a total of 13,680 "Tokyo Metro Vision" in-train screens on the Tokyo Metro Tozai, Chiyoda, Yurakucho, Hanzomon, Namboku and Fukutoshin Lines will be connected and linked to the LIVE BOARD Marketplace on a trial basis from October 9, 2023. In addition to the traditional inventory buying process which involves specifying a period and number of ad plays, the screens are now available to buy by the impressions (numbers of viewers who are estimated to see ads) generated from a mathematical model. The impression measurement is based on location data (including data from NTT DOCOMO) and analytics in order to calculate the total number of viewers of an ad by stations.

"Tokyo Metro Vision" and "LIVE BOARD Marketplace" have been linked to 2,464 screens on the Tokyo Metro Hibiya Line since December 2022 and to a total of 3,348 screens on the Tokyo Metro Ginza Line and Marunouchi Line since March 2023, making a total of 19,492 screens on all nine Tokyo Metro lines. The new system will connect to a total of 19,492 screens on all nine Tokyo Metro lines.

Together Metro Ad Agency and LIVE BOARD continue to provide effective and efficient ways to activate transport ads in order to bring new business opportunities and evolve the DOOH industry.

### ◆About LIVE BOARD, INC.

**An operator of a digital OOH ad network that achieves data-driven targeting and effectiveness verification.**

LIVE BOARD is the first company in Japan to achieve impression-based advertisement delivery in OOH. We deploy advertisement delivery and billing systems in accordance with actual conditions that are based on the estimated number of viewers "at that time, in that place, and for that specific ad," even during the COVID-19 pandemic, when people’s movement patterns are prone to change. In addition, by combining big data from Japan's largest carriers with our own network, which includes a wide range of digital OOH across Japan, including outdoor, indoor, train, and station OOH ads, we have been able to deliver personalized ads, such as targeting by gender and age, that was not possible with traditional OOH.
